

4 Reasons To Migrate from your Current Solution to **SafeNet Trusted Access**

Say goodbye to

3 year token renewal cycles

Time consuming management & maintenance

High costs

Say hello to Safenet Trusted Access

Award-winning Multi-factor Authentication AND Cloud Access Management delivered from one integrated cloud service.

Migrating from your current solution couldn't be easier

Keep your current tokens and servers, while incrementally migrating to a multi-tier, multi-tenant cloud environment as your licenses expire. No need to rip and replace!

Proven technical migration path

Use the same technical migration path already used by hundreds of happy customers.

Lower TCO

Reduce your Total Cost of Operation (TCO) with intuitive management, simple integrations and cloud efficiencies. 100% cloud solution.

Simple pricing model

Pay one simple all-inclusive subscription fee. No three-year token renewal cycles. Just subscribe, and you're done!

MFA and Access Management in one solution

Secure all your apps with the best multi-factor solution on the market, and offer trusted access to all your cloud apps with cloud SSO and granular access policies.
