All over the world, organizations are migrating to strong authentication delivered as a service from the cloud to lower their Total Cost of Operation, reduce their operational overheads, and provision 2FA to all their users in minutes.

Gartner predicts that by 2019, 90% of new and refreshed user authentication deployments for small and midsize organizations will be delivered via cloud, up from less than 50% today.

**Benefits of SAFENET AUTHENTICATION SERVICE**

- **90%** Up to 90% reduced administration costs
- **60%** 60% lower Total Cost of Operation

**PROTECT EVERYTHING**

- Protect everybody
- Protect everything
- Save money
- Easy migration

**PROTECT EVERYTHING**

- Synchronizes with current user stores
- Enforces access controls
- provisions tokens over-the-air
- Sends alerts via SMS or email
- Automated report delivery

**KEY CONSIDERATIONS WHEN SELECTING A 2FA SOLUTION**

- **62%** Total Cost of Operation
- **60%** Ease of use
- **53%** Ease of audit

**TRENDS**

- **60%** of new and refreshed user authentication deployments for small and midsize organization will be delivered via cloud
- **90%** in 20 minutes

**SafeNet Authentication Service**

- CAN DEPLOY 2FA TO 20K USERS IN 20 MINUTES

**Server-Based Authentication Deployment Plan**

**The Old Days**

- On-board, configure and roll out 2FA in the same time it takes to drink a coffee

**How is that possible?**

- Protects
- Protects
- Saves
- Easy migration

**Deployment of 20K Users**

- **16 Mins** SafeNet Authentication Service speeds through deploying 20K users
- **10 Mins** Deploying strong authentication to 20K users over a coffee
